As a 'move in' to Midway I have been fortunate to observe from the unbiased sidelines what has taken place in this small community. I have found it extremely difficult to accept the 'dirty' politics that seem to run rampant in a town that everyone seems to know everyone.

It is beyond my comprehension how people could take their civic duty so lightly...and not vote...to make sure that it's government does not become laden with nepotism and conflict of interest. How can we ignore the facts that one family could possibly have two members from the same family in control of the town government...that one candidate may have a major conflict of interest with his business interests already established in town.

From almost day one, I have heard and seen what even the old timers call the 'good olde boy' network...why must anyone of us sit back and allow this

one right that makes us the true Americans we are.

I for one, as a concerned and informed citizen of Midway, will be voting for Bob Simonsen, a man who has the utmost integrity and is impeccably honest...he has the qualities we need for the future of Midway.
